ENERGY IN SUBURBIA

March 16, 2006 -- 7pm to 9pm

SPEAKERS: JAY GOLDEN & HARVEY BRYAN

Jay Golden and Harvey Bryan have been involved in assessing environmental impacts upon the Valley communities due to our energy behavior

FILM: END OF SUBURBIA

With brutal honesty and a touch of irony, the film, THE END OF SUBURBIA, explores the suburbia way of life and its prospects as the planet approaches a critical era as global demand for energy begins to outstrip traditional resource supply. Discussion of the issues raised in the film and their manifestations in our Valley community will identify both the conditions that face us and the mitigating actions people can take.

Lectures are the **Third Thursday** of the Month
